

Fall 2011

Archdale

ACA P.O. Box 41543 Charleston SC 29423-1543

President's Corner

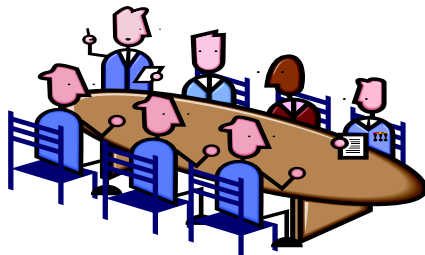

I would like to express my deepest heartfelt appreciation to each and every one of our thoughtful and considerate neighbors who I see carrying bags for collecting litter & debris while enjoying walks or jogging through our tranquil neighborhoods. It means so much and has such a positive impact on everyone; you are indeed our unsung heroes and heroines!

When I moved to beautiful Archdale, I was greeted by [then] ACA President Steve Hurley, as well as caring new neighbors who made me feel at home in my new surroundings. Appreciating the favorable impact of being so warmly welcomed, I have continued the practice of personally welcoming new neighbors when I too, was honored to be elected President. Like myself years ago, many have relocated from far and wide to experience adjustments to a new area, new schools, new foods and cultures.

I invite you to devote a few minutes to knock on your new neighbor's door and personally welcome them to our wonderful community. You will discover it to be an amazing and gratifying experience - for you both.

~Norman McDonald, ACA President

Neighborhood Halloween Safety Tips

Don't Frankenstein Your Lights Inspect all electric decorations for damage, don't overload extension cords and use heavy duty extension cords for fog machines and inflatable decorations.

Beware of Candles! Candles, especially in a Jack O'Lantern, should be off the ground and out of children's reach. Try battery-operated LED candles for an even safer option.

Don't Trip Up Your Goblins Halloween costumes should allow full movement and don't restrict your children's vision. Costumes that drag, constrict or drape pose a dangerous hazard.

Say Boo! to Unsafe Costumes Costumes should be made of light colored flame-resistant materials. Attach reflective material. Be sure each child has a flashlight to help them see and be seen.

Keep Hungry Monsters from Feeding Never let your kids eat Halloween candy before you inspect it in the light at home. You should always check to be safe and throw away open candy or anything that looks at all suspicious.
